

CRRC Fees and Dues Structure

2435 N Lombard St., Portland, OR 97217 · Toll free (866) 465-2523 · www.coolroofs.org

Effective November 1, 2015

All fees and dues are on a January to December billing cycle.

Overview

This document describes the fees and dues structure for CRRC Licensees, CRRC Rated Products, CRRC-accredited test labs and test farms, and CRRC Members.

The CRRC charges an initial fee or due for first-time Licensees, Members, rated products, and test labs and test farms, and a renewal fee or due each subsequent year.

Payment of fees and/or dues must be made before Licensee, product rating, and/or test lab/test farm applications are approved by the CRRC. All other required information and documentation must also be submitted to and processed by the CRRC in addition to the payment of fees and/or dues. Members pay the initial dues after the application has been approved by the CRRC Board of Directors.

Payment of Licensee fees, product rating fees, test lab/test farm participant fees, and Membership dues for existing Licensees are handled through the CRRC Online Rating Portal. For companies or individuals who only hold CRRC Membership status, annual dues are handled directly by CRRC staff.

Product Rating Fees and Dues

Product rating application fees are not prorated. The fees cover CRRC processing costs only.

Production Line Roofing Products	
Standard Roofing Product – Initial	\$250
Standard Roofing Product – Renewal	\$130
Reference Product – Initial	\$250
Reference Standard Product –Renewal	\$65
Rapid Ratings Product Application	\$200
Color Families (see definitions below for this section)	
Color Family Group ¹ (includes Representative Element) - Initial	\$225
Color Family Group (includes Representative Element) - Renewal	\$130
Color Family Element (Additional) - Initial	\$55
Color Family Element (Additional) - Renewal	\$11
Convert a Standard Roofing Product to a Color Family Product ²	\$130
Custom Color Products	
Custom Color Product ³	\$130

¹ A Color Family Group is established upon receipt of a product rating application for a Color Family Representative Element along with payment of \$225 for the group. The product fee for annual renewal is \$130.

² The fee to convert a Standard Roofing Product to a Color Family Product is a one-time fee, after which renewal fees will follow the Color Family Element Renewal fee structure.

³ Custom Color applications are accepted only from companies already participating as CRRC Licensees.

IMPORTANT NOTE: There are additional fees associated with a product rating that are not listed in the above table. Fees will be incurred through initial/aged radiative property testing performed by an Accredited Independent Testing Laboratory (AITL) of your choice (see list of AITLs [here](#)). There is also a fee associated with three-year weathering at an approved CRRC test farm (see list of test farms [here](#)). The CRRC does not regulate the costs charged by an AITL or test farm. Please contact an AITL or test farm to find out what they charge for testing and weathering, respectively.

Licensee Fees

Fees are based on from the first date of contact with the CRRC. That date will be considered the “invoice date” that determines the appropriate fee amount.

International Licensees

While Random Testing costs are built into the existing program fee structure, there may be higher costs associated with collecting products from international locations. The CRRC may invoice these companies for the marginal costs above typical costs for U.S. product collection. The invoice may be issued any time after the product has been received by the CRRC.

Membership Dues

Membership dues are assessed according to the below monthly schedule, except for Class B dues, which are always \$55. Class B membership fees that are paid in December cover the current year plus all of the next year.
